SILVER COINS OF HAYTI.

The genuine pieces of Hayti are of low silver, and a large number of those in circulation are counterfeit, consequently no value is attached to them, except as curiosities, by antiquarians.

There are pieces among the silver Coins (Bolivian and Peruvian Pieces), when in many cases, fall short in weight or fineness, and are not worth what the full weight and standard pieces are. These we have quoted low, to meet the value of the depreciated pieces. Some doubt has been expressed as to the purity of the late issues from the Belgian Mint. We have, therefore, omitted to note their standard fineness.
